The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 7, 8, 12, and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 7 and 12 are indefinite because it is unclear what structure is intended to be implied by reciting the device as disposable. Claims 8 and 12 recite no further structure.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Chen et al.
4. The device of Chen et al could be placed over the eye. Both elements 152 of figures 10a and 178 figure 12a could be considered tear drop shaped. Also note the embodiment of figure 19.
5. Claims 14-19 are allowed.
6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hwang et al shows a prior art fixation device.
